

Where is God Pouring Out Fire and Glory?

Doug Addison with Miranda Nelson [Episode 18]

June 21, 2017

Hey everybody, welcome to another Spirit Connection Podcast. Doug Addison here. I am so excited that you joined us. Oh man, I tell you, there is such a good surprise because the heavens are open right now. I have a special guest on and we have been praying and everything opens up the portal. I tell you, the heavens open every time I am around her. I actually released some prophetic words a while back about a revival coming in Southern California and she and her husband, Jerame and Miranda Nelson—they have been stoking that fire of revival and they have been doing meetings in San Diego. So I have Miranda, but I want to just say that she is one wild woman of God. She has a background in modeling and fashion but now she is a revivalist. I was joking with her that she traded Prada for combat boots, because whenever I have seen her she actually goes in and opens the heavens. They are the cofounders of Elisha Revolution, Jerame and Miranda in San Diego, and they have been doing the Fire and Glory Outpouring meetings in San Diego. She tells me they are on day number 381 and there is a new glory coming. Ever since January 2016, they have been doing meetings and the presence of God is opened up. Also, both of them are crusade revivalists, conference speakers, and actually really good friends of mine. I have known them for a long time and I really love them both. So I just want to welcome Miranda.

Miranda: Thank you so much for having me, Doug. It is a pleasure to be on your show with you. I am just really excited about what the Lord is doing. It is amazing!

Doug: Yes, yes. So just tell us a little bit about yourself.

Miranda: Yes, so I am just really excited. You know, we have been living now in San Diego for the last year and a half since revival broke out. We have been going now, like you said, since January 2016. Before that, for three years we were in Pasadena and before that we were in San Diego for four years. So we moved from Canada in 2009. You know, we moved with the purpose of God promising us revival hitting San Diego. That was in 2009, but we had no clue that it was going to take some plowing to get to where we are at today. So for four years solid we sowed and we sowed. We sowed finances, we sowed conferences ... you know, we stoked the ground and prayed and

decreed and believed and worked with the churches for revival. But then we were shocked when, you know, the Lord actually was like, “Okay, I want you guys to move to Pasadena now and align with an apostolic ministry there with Che Ahn and HIM—that network. From there we knew that we were at some point going to move back to San Diego. We did not know when, but we knew that it was always in our heart and that God had given us a promise there. So we continued to do conferences and our annual Prophetic Decree Conference that we do every January in San Diego, even when we were still living in Pasadena. So in January 2016, that is what happened. We were doing our annual Prophetic Decree Conference and lo and behold it broke into something that we did not expect, but we did have the prophetic words. Like you said, you had prophesied and James Goll had prophesied just a week before that revival was about to break out and San Diego would be the fire spot. And that is what began to happen.

Doug: Yes, and I have been there and I tell you the presence is very strong. There is such a strong anointing for not just healing, but just all aspects of God. You know, this presence coming. You never know what is going to happen next.

Miranda: Amen. Yes, it really is about the presence. So, you know, we see a ton of miracles. I mean, we have seen Lyme disease healed, stage IV cancers healed. We have seen the dead raised and people coming out of comas. I actually just got a testimony the other day of another person coming out of a coma after I had made a decree a few months ago and they came out that day. So we have seen tons of miracles, but the focus is the presence. That is really what signatures this move of God—the realm of the glory.

Doug: Yes, exactly. I just want everyone to know that, you know, I have been afflicted for four years and I am now coming out of that, but I just have to credit the Lord. The Lord really moved on these meetings. I went there. I went down there and the Lord said to go down there to the meetings and soak in it, in September of last year. I went and just stayed in the presence, stayed in the presence, because I was suffering with Lyme disease. I was suffering with multiple chemical sensitivity and Huntington’s. I mean, I had this list that had been hitting me. Now I just want to tell you, I even took a Lyme test after I got back from the meetings and just over praying and doing different things and the Lyme now says negative. It is not even there.

Miranda: Oh wow! That is amazing. I did not even know that.

Doug: Yes, and I just give credit for ... you know, lots of people in ministries have helped me with that, but you guys were one of them. It is where it started.

Miranda: Amen! That is awesome. That is amazing!

Doug: Yes. I am so excited. You know, I remember the prophetic word that I got back in 2012. That was the first time about San Diego and about the sign of the dolphins. It was right around Valentine's Day. There was like a stampede of dolphins that appeared off the coast of San Diego and I thought it was going to start that year and I thought it was going to start the next year. Do you know what, like you said ... you went there and then suddenly you moved, right? Then you went back. I believe that God is doing something, but we have to get His perfect timing.

Miranda: Right. Absolutely.

Doug: So, you know, just tell us a little bit more.

Miranda: Yes. So it is just amazing to walk with God. I have seen through my life ... when I was 17-years old, I got filled with the Holy Spirit. I grew up in a conservative church, so I always knew Jesus. I did not really stray from Him, but I did not know the power of the Holy Spirit or the person of the Holy Spirit. When I was 17, I finished high school and I ended up going away on missions doing YWAM and different things and I ended up meeting the Holy Spirit. That is really where my journey of obedience really began with the Holy Spirit and beginning to see the power of God and that spirit of revival and reformation begin to touch my life and getting a passion for it. I went from being timid and shy and quiet and insecure, not knowing who I was, to becoming bold and radical and faith-filled. I began to see miracles everywhere I would go, as I would just step out in faith. I saw cerebral palsy healed, you know, arthritis and broken bones and all sorts of issues healed, as well as seeing the authority of the believer manifest in my life. That is really what I began to walk in as a 17- 18- 19-year-old—you know, speaking to rain clouds and seeing them move. You know, speaking to conditions and seeing them dissipate and change and shift. So I really began to learn what Job 22:28 means, you know, "Decree a thing and it will be established for you and light will shine on your ways." So I began to walk in that and really got a passion for revival without fully knowing what revival meant at the time, you know, but just walking with the Holy Spirit. That is kind of what has led me up until today where I just journeyed with Holy Spirit over the years with traveling, going wherever He said when I was still single before I knew Jerame. You know, just traveling the world and going wherever He asked me to go, when He would ask me to go. I was in 20 nations before I was 20-years-old, seeing people's lives changed and touched and just, you know, moving with the Holy Spirit, seeing the supernatural operate in my everyday life and ministry and missions. You know, it was the same thing with the modeling world. I went into modeling and I went into fashion design specifically because God asked me to go into it. As a child, I did not really know about that, you know; I did not really have a background in that. Like I said, I grew up in a conservative church, so I was sheltered from a lot of that. But when God asked me to step into modeling for the purpose of, you know,

being a prophetic voice and a witness in that industry, I without a doubt ... You know, He gave me dreams that confirmed and prophetic words that confirmed and I stepped into it. God opened all sorts of doors. I am still doing a little bit of that, but revival is my focus. I am still modeling and seeing miracles in that industry because I believe in revival unto reformation, and that is what both Jerame and I believe. We are seeing this revival here in San Diego and it is spreading to different regions around the globe. We have seen lasting revivals that are still going on hit Ottawa, Canada, Seattle, Washington, Lithuania, and different places that all sparked out of the Fire and Glory Outpouring in San Diego. But that said, you know, we believe revival is unto reformation ... to city transformation. So in the modeling industry, you know, I take every opportunity I have—every modeling job, whether it is runway or print or commercial—and I use it for the glory of God. So I go in, you know, prayed up and a friend of the Holy Spirit. I go out and do my job, but I stay pure in it and I stand as a witness in it. So I have seen muscular dystrophy healed on a photographer, I have seen kidney disease and fibromyalgia healed in models, and I have seen the lost get saved and girls weeping and crying as they get touched by Holy Spirit, as they get touched by God, dream interpretation and all that. You know, it is amazing because God is the same in every place in society. That is why Jesus went to the prostitute, the drug addict, the alcoholic, and He also was with His disciples and He also spoke to the Pharisees. So I believe in touching all sorts of cultures and spheres of influence with the spirit of revival and it is just really a walk of intimacy with Holy Spirit. So I love the journey of Holy Spirit because you just never know what He is going to do. You know, like with the Fire and Glory Outpouring, we were hoping for it, we were believing for it, we had a promise, but we did not know when it was going to hit. Now that we are in the midst of it, it is just amazing. We are like on cloud nine. We just love it so much because we get to partner with God every single day. We never know what is going to happen. He does different things every single meeting that we do. We meet five nights a week and every single meeting that He does or that we do ... You know, sometimes people are crying on their faces at the altar, sometimes it is like holy laughter, sometimes miracles are popping all over the place. Other times gold and silver and oil are manifesting on people's hands as a sign of the anointing—the oil of anointing of His presence. Worship is a huge part of that, but it is the focus of the worship and intercession and just His Face.

Doug: Outreach too. You guys do outreach.

Miranda: Absolutely. Absolutely. Every week we take teams out to the streets. It has been amazing because not only are we seeing many, many, many souls saved, and we are seeing many miracles, but along with that we are seeing a lot of the people who are coming who have never moved out in outreach activated. So we are seeing people who have never moved in words of knowledge or never moved in healing become bold as they just step out and

they are discovering that their words of knowledge are accurate. They are getting so full of fire and faith because they are seeing the fruit of their words and their interactions and their love on people manifest, so it is sparking in them that whole revival anointing and passion for the lost and passion to reach out. So, yes. We are definitely infiltrating our communities, San Diego County, with outreach and we are really excited about it.

Doug: Yes. I am very proud of you. You know, I do not know if everyone knows it. I was one of the forerunners in training people in prophetic evangelism and I trained Jerame, your husband. I trained him in dream interpretation. We did outreach, we did all kinds of fun stuff and I am so proud of you guys because you have stoked the fire and you have kept it going. Because revival these days, you know, they can turn into a revival meeting in the church but you know it is revival when it overflows into the streets.

Miranda: Absolutely. Absolutely. That is what it is about. Again, revival unto reformation and reformation is that city transformation aspect of it. Yes, we are seeing it. We are seeing the people get activated and sparked with fire and passion and hunger in the revival meetings at night. But then it is all overflowing into the streets in the daytime where the lost are being saved and miracles are breaking out and people are getting set free. Cancers are being healed and people are experiencing the love of Jesus in real everyday life, you know? It is amazing.

Doug: I am really encouraged here, especially for our listeners, you know. They vary in age. I am really encouraged that you—you are talking between 18 and 20 years—going to all these nations and seeing cerebral palsy healed, seeing signs and wonders and it being normal for you. To me, I was like, wow! A lot of times as a minister, conference speaker and a prophet, I had to go in and open those things up, but that came to you. Now, were you living in Canada at the time?

Miranda: That is where I was based, for sure. That is where my family is, that is where I grew up. But I started with YWAM, like I said, straight out of high school, so I was basically traveling the nations from 17 years on. So I was in Switzerland, I lived in Australia for a short amount of time—well really for like a year, but in and out doing missions—in and out of Australia from there. Then I also was in Redding, California for 9 months. But, yes, I was based in Canada, in British Columbia.

Doug: Now, you know, when the Holy Spirit came in and you started doing more of the healing and the signs and wonders, what were the groups or what were the places that influenced you the most.

Miranda: Oh, man. You know, it is like I said. It really was a journey. And it still, of course, continues to be a journey with Holy Spirit. It is amazing because

when I went to YWAM, I began to open up to the Holy Spirit. But even before I ever heard anyone speaking in tongues—it sounds so elementary, you know, in Christianity—but to be honest, I just did not grow up with knowing that even existed. And before I even heard anybody speaking in tongues, any teaching on it, anything ... the Holy Spirit really was my teacher and began to stir my heart with that question: “Who is Holy Spirit? What is speaking in tongues?” A friend in mine in YWAM began to teach me, you know, from her Pentecostal background what the baptism of the Holy Spirit is. I went to the prayer room on my own, sought the Lord, read every scripture I could find on Holy Spirit, on speaking in tongues, everything ... and I received it that night there on my own. Then the very next week, without me even knowing, the very next week we had a prophetess come and teach and that whole week was focused on the Holy Spirit, speaking in tongues, prophecy, all that. So I began to get language for what the Lord had sovereignly just brought upon me and then from that point, you know, I began to really grow in evangelism through YWAM. I went home from a couple of different YWAM experiences, a school of evangelism. Obviously my DTS was the first thing and an Olympics outreach in 2004, and then I went home from that and I just began to take evangelism out. I was seeing miracles on the streets. You know, I was with a bunch of different ministries. I did the Bethel School of Ministry for a year. I was seeing miracles before that, but when I went to Bethel it really exploded because I basically took what I was starting to walk in with words of knowledge and with healing miracles on the streets through evangelism. It just went out the roof when I went to Bethel because I got such a passion for it and a realization of this being normal, everyday life. I would literally go on my own, you know, after school hours kind of thing, and on Saturdays, on weekends. I would go either by myself or with a friend, with a roommate. I would go to the malls. I would go to the gas stations. I would go anywhere I could find. Sometimes I would wake up in the morning with a word of knowledge or a word of wisdom to go to another city, to go to Medford, Oregon or to go to San Jose or wherever. I would wake up with a word of location and I would go there. You know, gather a friend or two and we would drive there and then we meet all these divine encounters and see radical miracles, salvations, and people set free and experience the presence of God. So that is where that miracle anointing really went to a whole other level. The prophetic I had begun to step into really in YWAM days, so right before I went to Bethel, you know, was when I began to walk in the prophetic and stuff and from there I just increased, you know, different ministries.

Doug: Like you said, you have had one journey—a Holy Spirit directed journey. I am very encouraged about your life and your story. I guess, you know, one thing that we could learn from it is just keep doing it. Keep showing up. I remember years ago I was part of the Vineyard movement with John Wimber—and John Wimber saw signs and wonders and miracles back in the 1980s before everybody else was seeing it as a mainstream—and his teaching was, “Just keep doing it. Go out there. The meat is in the street. That is where we will

see it.” That is my secret. I tell you that even with the prophetic I have given, you know, interpreted, I do not know, maybe over 30-40,000 dreams. I have given, you know, hundreds of thousands of words. If you keep doing it, God will show up and you will have some stories to tell.

Miranda: Absolutely. That really is the key. I mean, that is how I began walking in the miraculous and signs and wonders. I went from as a teenager not seeing any of that stuff, as a conservative Christian not winning souls, nothing—even though I had a heart for the lost. But no fruit, you know, until when I got filled with the Holy Spirit and then going out every day for the most part, you know, winning souls, seeing miracles. Literally just that diligence ... because God honors hunger and He honors obedience and He honors diligence.

Doug: Absolutely. Yes, absolutely. So now, are you still doing modeling?

Miranda: I am doing bits here and there. Yes, I am. I have at times thought I was going to get out of it. The Lord just continues to be like, “No, you have to see yourself as a missionary to the modeling industry.” So I still, as busy as I am with ministry, I definitely am still doing modeling ... primarily runway, but a little bit of everything. So I am definitely seeing miracles in that industry for sure.

Doug: I am so encouraged by you. We are here in Hollywood and you guys are in San Diego and God is doing something new everywhere. But you know, I just believe something is going to really light up in Southern California. It is going to affect the world like it did with the Jesus People Movement.

Miranda: Absolutely. I believe it.

Doug: All right. So you guys are revivalists. Why do you not just tell us a little bit more about what that means?

Miranda: Yes, you know, Jesus walked in the spirit of revival everywhere He went. You know, people gathered and there was always a passion and a hunger and a curiosity of “What would Jesus do next?” kind of thing. Because He was feeding the 5,000, you know, multiplying fish and loaves, walking on water, and He really just carried that spirit of revival. Really, revival brings awakening and that is what you see in the book of Acts when the day of Pentecost had fully come. You know, Jesus had told the disciples, “Wait until you are endued with power from on high,” and so wait in Jerusalem. They prayed and they prayed and they prayed. It says that, “With one accord they would gather,” and in one accord the Holy Spirit came on that day of Pentecost. That really is a marker of revival: when the Holy Spirit came and filled them and saturated those disciples in the upper room—that 120 gathering in the upper room in Jerusalem. You know, the spirit of revival hit them were they became wild in the Holy Spirit. But they became bold and

that is a trademark of revival—seeing boldness that makes miracles manifest—and it brought them to 3,000 getting saved after Peter preached the gospel. And from there, the lame beggar walking in Acts 3 when Peter and John, you know, just said to him, “Listen, silver and gold I have not, but what we have we give to you. In the Name of Jesus of Nazareth, get up and walk,” and from there he got up, left, and began walking and praising God and it says that it stunned the people. All the people were filled with amazement, and I believe that that is a marker of revival. It brings a curiosity, an awareness, an awe of God back into the hearts of people, both saved and unsaved, you know, because it actually brought 5,000 salvations—just because of that one miracle. We have seen that in the midst of the Fire and Glory Outpouring and as revivalists—even before the outpouring broke out in January 2016—as we have traveled the world as revivalists sparking fire and sparking hunger and passion in the hearts of people all around the world. We have seen that a lot of the times, you know, one notable miracle, one marker situation is contagious. We saw that one time in Montreal, Quebec, Canada where there was a man who was a famous musician. He came into a meeting that I was preaching in actually. He had a collapsed lung. Ever since he was born he had this collapsed lung and he was only given days or weeks to live and he came in desperation. I was actually in the process of calling out words of knowledge in this particular meeting and, you know, when I was calling out words of knowledge. I did not call out a condition of a lung, but in his desperation and in his hunger ... You know, I think of Mark 10, where it talks about blind Bartimaeus. In his desperation, he would not be stopped by all the people who were trying to shut him up. In his desperation, he went to Jesus and he received his sight and became a disciple right there. That is what happened with this man with a collapsed lung, because he was literally given a short amount of time to live and in his desperation he did not wait for a word of knowledge to be called. He came and he tapped me on the shoulder and said, “I need to be healed. I am desperate”—a famous musician in Quebec, Canada. I said, “Okay. Well, you are hungry. Let’s pray for you,” and we prayed for him and right there he would constantly feel a shakiness in his breathing. He could not take deep breaths. He had a machine at home where he had to measure his lung capacity every single day and he rushed to the hospital many, many times. At that moment, as we began to pray for him, this oxygen began to fill his lungs and he was able to take a deep breath for the first time ever. He felt a strength come in his body and all the shakiness left. He went home that night, measured his lung capacity and it went way up. Within two days he went to the hospital to get tested and they could not explain his situation. They said, “We do not know what happened, but you have a brand new lung.” He was so miraculously healed that the word spread because he was a famous musician. It was a marker miracle that just like that lame man in Acts 3, it caused 5,000 to get saved because of his miracle that everyone knew, you know? That is what happened in Montreal, Canada. It spread and it began to be the talk of the province of Quebec because he was a known man in an incurable situation. We have

seen that over and over and in the midst of this Fire and Glory Outpouring. We have seen where notable miracles have sparked something. You know, there was a woman in Ottawa, Canada last August who had stage IV cancer and Jerame, my husband, and our worship director, Andrew Hopkins, went over to bring an impartation of the Fire and Glory Outpouring to Ottawa, Canada. So they go and this woman is there with stage IV cancer—bone, brain and breast cancer I believe it was—a desperate situation where she was given a very short amount of time to live. In the atmosphere, no one even laid hands on her, and in the atmosphere she received her miracle. She goes the very next morning; she knew she was healed. The next morning, she demands tests at the hospital and sure enough the tests come back completely clear of cancer. She comes to the meeting that night and shows the report, which shows the tests of both the before, where her body is filled with cancer, and the after, where there is not a trace of cancer. The crowd went wild. That notable miracle—stage IV cancer being totally healed—broke them into revival that is still to this day going. They have been going seven nights a week and they have seen over 2,000 salvations in the streets alone as a result of that one notable miracle. So that is the spirit of revival, touching even one person that can be a contagious effect that sparks, you know, in a city, in a region, in a community ... into contagious salvation, hunger, passion, and miracles spreading from there.

Doug: Wow! That is so amazing. I just want to tell you, you know, our listeners, if you can get to their meetings, I tell you, do it. They meet five nights a week. I am not kidding. I saw manifestations of gold, I smelled the presence of the Lord come in the room when I was there. I was only there a few times and every time I have been there, there has been something amazing happen and the Lord is moving so much. One thing I just want to say. I notice, you know, Jerame has his way and his gifts and you guys complement each other, but Miranda has the ability to open the heavens, whether she knows it or not, I am not sure. But I am a spiritual atmosphere guy, so I go into meetings and I can tell what is going on in the meetings and I have watched her open the heavens, just like she has done right now. You know, she has opened the heavens over this audio, over our time right now. She has opened up the heavens for you to believe that God can use you, to believe that God is going to do something new, to believe that God can heal you and that there is a destiny for you and that you are going to have something new happen. In fact, while we are in agreement right, I just felt the presence come so strong all of a sudden. We are agreeing right now: on Earth as it is in Heaven. In just a few minutes I am going to have Miranda release that over you, but I just wanted to tell you that because some people might not understand what this feeling is that you are getting right now. I am also excited for what is going on and there is some news that you guys are doing. So tell us a little bit more about what is happening there in San Diego.

Miranda: Yes, Doug. It is amazing. I actually feel the presence as you were talking as well. I was just like getting sucked into that glory realm. Yes. So five nights a week, Wednesday through Sundays at 7 p.m. we are going but, you know, we have been in the North County of San Diego for, you know, the majority of the last year and a half. You know, we really believe it has been strategic because the North County is literally the gate into San Diego County and, you know, there has been so much intercession and worship and, I mean incredible miracles that have happened in intercession. I remember on Yom Kippur I had an encounter with the Lord where the Lord began to speak to me about the winds of change and that the winds of change were about to blow to open prison doors and that there will be mass amounts of prisoners that were going to be suddenly set free in this season, and large groups at one time would be freed. You know, whether those were trafficked victims or literal prisoners or whatever. And literally, the night that I prophesied it, there was in Nigeria ... I believe it was 21 Nigerian schoolgirls that for two years were not found. They were held captive by Islamic terrorists, and 21 Nigerian schoolgirls suddenly, that day that I prophesied, the prisoners being set free were released. As well, within a couple of days, there were 26 Asian people who were held hostage by pirates off the coast of Somalia that were suddenly ... for 5 years they were held hostage. Within a few days of me prophesying that, they were suddenly released. There has been so much intercession through this and we believe it has been, you know, as a gate into San Diego. It has been really strategic, because we have seen that in California as well with that same declaration of the winds of change opening prison doors and setting free large groups at one time who have been captive. We have seen it with the trafficked victims in California. We have seen it in Ottawa. I just continue to get testimonies of large groups at one time suddenly being released. So we believe it has been strategic at the gate into San Diego County that we have been in the north. But we have an amazing opportunity now that God has given us, you know? For a number of months, as the Lord has given us encounters and prophetic revelation, we have come to realize ... We always knew the Aimee Semple McPherson—you know, a past revivalist who has a major history in San Diego—we knew she had a history in San Diego. She preached to 30,000 people in Balboa Park right in the center of San Diego city. Every Friday, she would have stretcher day where people would roll in the lame, the wheelchairs, the stretchers and they get up out and walk, and tons of salvations, tons of miracles. She really was a pioneer in the place. It is amazing because then she ended up bringing in Smith Wigglesworth, another major revivalist and a powerful, powerful man of God from England. He came and saw many miracles here in San Diego. So we had a number of encounters over the last six months or even longer where the Lord, you know, gave us encounters regarding Smith Wigglesworth and regarding Aimee Semple McPherson. So we began to study the history and we discovered there was a building in downtown San Diego right across from Balboa Park where Aimee Semple McPherson preached to 30,000. There was a building that was built literally

for Aimee Semple McPherson to preach in. So this building was on our heart and, you know ... we just knew it had a lot of history. We came to discover that also the Jesus People Movement ended up using this building and owning this building later on and 100,000 people were saved in that building in that time. Then, you know, we have been discovering more and more miracles ... of food multiplication from 200 dishes serving 500 people, and all sorts of signs and wonders. Well, anyway, we had the opportunity to purchase this building as a home for the Fire and Glory Outpouring. You know, we have been so blessed because we have a number of churches—four churches specifically—that have really partnered with the Fire and Glory Outpouring and we have hosted the Outpouring at three different churches: Rancho Bernardo, the Heart of God Church there; in San Marcos with Summit Church where we currently are; and then also in Vista with the Awakening Church there. We have had numbers of churches get together and, you know, really partner with us. But we have come to the place where we realize, you know, we want to have a permanent home for the Fire and Glory Outpouring to host these nightly meetings, as well as a hub for reaching the heart of this city of San Diego. So that building that I was just describing to you that hosted Aimee Semple McPherson and Smith Wigglesworth and the Jesus People Movement and all these miracles and salvations ... it came up for sale and we had the honor and the privilege of putting an offer in and that offer got accepted. I should mention as well—actually this is a huge key in it—in March this year, March 2017, Bobby Conner, one of our spiritual papas, a prophet of the Lord, he came out to San Diego to preach in one of our monthly conferences, Fresh Awakenings, that we host in the midst of the outpouring. When he came ... you know, we had told him about this building that hosted Aimee Semple McPherson and Smith Wigglesworth. So when he came, he specifically asked us, “Hey, I want to go and see that building.” When we go ... This is amazing, Doug. This is amazing you guys. When we went downtown to show Bobby the building—it was myself, Jerame, our worship director Andrew Hopkins, and Bobby Conner—and as we are approaching the building ... You know, we have been down there a number of times. It is always locked on weekends because there are businesses in there or there have been businesses in there, so we did not expect to get in. We just thought we were going to show him where the location was. But as we were approaching, there we see behind the glass door this man dressed as a construction worker. We thought he was a construction worker; you know, orange vest, helmet on, and a tool belt. He is walking on the inside. So we thought, “Oh, maybe we can knock and he will let us in.” But as we got to the door, you know, the door just opened. No one, we did not have to knock, nothing. It just opened. So we were kind of shocked right off the bat because we thought, you know, this door should have been locked. As we step inside, there were no lights on and there was nobody to be found. We began to cry out, to shout out, “Hey, hey,” you know, just call out because we did not want to startle a construction worker that would have been in there. So lo and behold, there was nobody in

there. We had to search around, scramble to find lights, to turn lights on, and Bobby Conner goes and says to us, “What’s the matter you guys, haven’t you ever seen an angel?” So we had an encounter there and he was like, “Come on. Let’s go in.” So we began to walk through the building and made some decrees. He made some decrees and he said to me and Jerame, “You know, I believe that was a worker angel preparing the way, working to open this building for you guys to own it as a host for outpouring.” So we ended up leaving the building, closed the door behind us, and sure enough we could not open it again. It was locked. So God just totally gave us a supernatural sign and a wonder, and an angel encounter that we could get into the building. Bobby Conner made a decree and from that point ... you know, we did not even know it was for sale at the time because it had not been for sale. About a month and a half later, we found out it came up for sale on the market. We put an offer in and our offer got accepted. So now, you know, we are in the process of raising the money in order to step into this building in August. So we are pretty excited about it, because it is literally re-digging the wells and that was one thing Bobby Conner actually told us at that time. He said, “You know, you guys are called to re-dig the wells of Abraham and Isaac. You guys are the Jacobs who are called to re-dig the wells of Abraham and Isaac that have been in this place,” and he did not even know about the Jesus People Movement being there. He knew about Aimee Semple McPherson so I believe that, you know, we are re-digging the wells of Abraham, the Aimee Semple McPhersons and Smith Wigglesworths, and Isaac—that was the Jesus People Movement. And now, you know, it is literally bringing the new and the old anointings together, what God is pouring out now.

Doug: I am excited!

Miranda: Yes, I am just really, really excited.

Doug: The process is open. You know, I had one of those. I felt that too and I love these supernatural encounters that you guys had. You know, we have been trying to do things here in Los Angeles. In 2004 I had an encounter, very similar. I just want to say this because it is opening finances. We went to a building, Angela’s Temple. I wanted to pray and the door opened. We went in and prayed and then one year later a \$125,000 grant was given to us, over Billy Graham, from the Four Square Foundation to do some work in LA when we were here before. So I just felt that really strongly—that God is going to release finances over you guys. He is going to release finances from Aimee Semple McPherson followers, their previous churches. I felt that really strongly. Also from the Jesus People Movement. I see something happening with finances. God just placed a funnel over you and there is something happening in the heavenly realm right now for this. It is so important. We did not even talk about this ahead of time. I just know that God is opening this up right now and it is such good ground. This is soil. Oh my goodness. This is

good soil, and it is going to be good ground for the outreaches and for the outpouring and all that type of thing.

Miranda: Yes, I feel it.

Doug: Well, why do you not just tell us how we can give to this and how to stay in touch with you?

Miranda: Yes, absolutely. You can find us on www.elisharevolution.com. That is Elisha, not Elijah, because it is the double portion and raising up the Jehus, you know the double portion mandate. So it is www.elisharevolution.com, or we also have an app that is a free download and you can totally follow us there. Just Elisa Revolution—that is the app name. I mean, that is the easiest way of getting in touch with us. There are places as well there that you can donate if you want to sow into this building project of, you know, hosting the wells of revival and bringing the old and the new and establishing this center in San Diego where we are going to reach the lost. We are going to reach the homeless and the drug users and the alcoholics and the business people as well. So, yes, if you want to just go to www.elisharevolution.com and you can also follow our meetings there as well.

Doug: Yes. Well, we are going to do it. We are going to sow into you guys. We love you guys. I know that the heavens are open right now. I mean, there is a glory portal over this podcast. So I just want you to release something over us that is going to just break that open.

Miranda: Absolutely. I just want to say, you know, right when I was talking about the old and the new, I happened to look at a number and it was 222. I just laughed because, you know, 222 is like Isaiah 22:22 ... the doors that no man can shut—that God will open the doors that no man can shut and He will shut the doors that no man can open. So I believe that this is the season that we are in, and I prophesy this, I prophesy this over those who are listening today that God is in the midst of you and He is in the midst of ... He is in the process right now of opening doors that no man can shut and this is a season of unusual favor where God will put you in places that you never even dreamed of. I know that there are people listening right now, that literally it is like you have been in an impossible situation and it is like you have felt like you have been banging on doors for a long time of promises that you know God has given you. But in this season, I am telling you, God is going to open the door that you felt has been shut for so long. I just prophesy Isaiah 22:22 over you right now, in Jesus' Name. God, I thank You for those who are listening right now, God, that You would pour out upon them, Lord, rivers of living water. In the midst of dryness, God, in the midst of barrenness, God—that You would open streams in the desert places, as You are doing, Lord. God, that You would pour out, Lord, new realms of glory, of outpouring over every single person. God, even as we have been talking about the

testimonies of Jesus, the testimonies of the miracles, God, that have been breaking out with stage IV cancer and Lyme disease and, you know, the gold and the silver and the oil and the fragrances of the Lord, God, Your manifest presence, God. I thank You right now, God, as people are listening, God, that You open up over them in their home, God, for encounters, for glory, God. I thank You that You are pouring out oil on some people's hands right now. You are releasing the fragrance of the Lord in people's homes right now, God. Lord, I thank You for miracles touching their bodies even right now, God, that, Lord, as people are listening God that, Lord, whether it is arthritis ... I speak to arthritis and I command it to go right now from your body, in Jesus' Name. If you have a cancer in your body, if you have a tumor in your body, just put your hand where it is. I just speak to that cancer, I speak to those tumors. I command the tumors to dissolve, the cysts to dissolve right now. I command the cancer to go, in Jesus' Name. I speak to eyes to be healed. I command every part of your body to come into alignment. Someone is even getting healed of a blood disorder, a blood condition. So right now I speak to that blood to come into order, to come into alignment, for the blood of Jesus to pour out healing through your bloodstream right now, in Jesus' Name. God, we just thank You for this spirit of revival—that fire and glory anointing, God, the fire of passion, the fire of Your love, God, and the glory of Your manifest presence, God. Lord, release it right now over all those listening, Lord, over their homes, God. Lord, let it be literally a portal opener over their homes right now and that everyone who steps into their home would encounter You, Jesus. So, God, I thank You, Lord, for souls being won through those who are listening, God, for boldness coming, Lord, on those who are listening, God. I thank You God, for a faith coming on those who are listening, God, that they would be bold and more faith-filled than they have ever been before, in Jesus' mighty Name.

Doug: Yes, and I just open up this portal right now because there is a whirlwind opening up in the heavens right now. And I just open up finances and I open up faith and I open up, in the Name of Jesus, a portal that is going to just take you right in. You are going to start having dreams—I see this—dreams and prophetic revelation and that is what we need right now. God, show us what we need to do to be able to break open these new things over us. So, Father, I just release that in this portal of, I do not know what you would call this portal but, boy, it is strong and I just had to pick myself up almost off the floor while I am doing this podcast because the presence is so strong. I release right now strategies from Heaven. Open the heavens right now for strategies, for finances, for favor, for revival in our homes, in our cities, in our churches, and especially outside in the street and in the malls. Father, I pray that. God, I bless Jerame and Miranda. I bless them, Elisha Revolution, and all their teams, Father. I thank You for them and I am so proud of what You are doing through them. I just say take this, Lord, these things that You have given them. And they have faith; they are young and they have faith and they are stepping up and defying all logic. We say right now, Father, increase that.

We pray that this building somehow would be given to them—that they would not be burdened with debt and that these meetings would break open and impact the entire world—I see it happening like ripples happening—the entire world, in Jesus' Name. Amen.

Miranda: Amen.

Doug: Wow! Well, thank you so much. We have been talking to Miranda Nelson of Elisha Revolution and the home of the Holy Spirit. The Holy Spirit lives in the two of you. I am so excited. I get touched and blasted in the Spirit every time I am around you.

Miranda: Amen. Thank you so much for having me, Doug. It is a pleasure, it is an honor and, yes, I just feel the glory. Come on. More, Lord.

Doug: Yes, His presence is very strong. Okay, everybody. See you next week.
