

How to Change the World?—Love and Prophecy

Doug Addison with Stacey Campbell [Episode 55]

May 30, 2018

Hey, friends! Welcome to another *Spirit Connection Podcast*. You have probably heard me talk quite a bit about revival and maybe that has different meanings to different people. I consider revival a move of God in ourselves or in a church, city or nation. God begins to move. It doesn't have to be a revival meeting. Revival can come and it will cause people to be turned to the Lord. Now, there are different levels of that, different forms of it.

Part of my ministry is to help fulfill the prophetic words about a very big revival that is coming on the Earth, and I have been talking about it in my [Prophetic Forecast](#). In fact, my 2018, or [The Prophetic Forecast Vol. 3](#), will go into some of the details about that. But, again, revival needs to come in your hearts. And we will see ... When we see a true revival like the Jesus People Movement, it was a true revival. It was the last known revival in North America back in the 70s. That's where people ... It was salvation-based.

Now, we have seen different types of moves of God, and I have been part of many of those moves. In fact, I was one of the forerunners of a move that started in the early 2000s—2001-2002—and it was called Prophetic Evangelism. Prior to that, we really hadn't been using the prophetic gifts for outreach, and God began to move on several of us, me as one of them.

And I began to give prophetic words out in the marketplace, in Starbucks, all over the place. I began to do dream interpretation and things like that. In fact, I was part of launching dream outreach teams and prophetic outreach teams all over the world. Now, I'm not saying I cornered the market in any way, but I was one of the forerunners and one of the fathers of this movement. And I did my first prophetic evangelism outreach in Kelowna, British Columbia back in 2001 with an amazing woman, Stacey Campbell.

Now, Stacey is a prophet. She is the founder of the Canadian Prophetic Council, and her and her husband Wesley have planted churches. They are being part of revival. Now, we went into a Booster Juice in Kelowna and we gave prophetic words, and Stacey was the one who helped open this up over me. She and Patricia King were the ones who actually first started that flow inside of me. I went off from that event in 2001, I

went off and moved with John Paul Jackson. My wife and I moved to New Hampshire and got trained in dream interpretation and became his National Dream Team Coordinator to do all the things.

But if I take it back, it really was Stacey and Patricia King who began to ignite this fire in me. I had just been healed of an incurable disease that had killed almost all of my family. I was down. I was an out-of-work pastor, and suddenly I got this flame and this fire came in me to do outreach a new way.

Now, since then I have developed it more. I've interpreted many dreams—well over 30,000 dreams—and I've done the prophetic words and even tattoo interpretation because God is moving, and there's over a billion people with tattoos today. The prophetic is, I tell you, it's one of the vehicles that will open people's hearts. You won't have to worry about, you know, having to convince people Jesus is real when you can tell them the secrets of their heart, if you can even just say one or two things or interpret a dream.

People are so open today. I'm telling you, they're so open to hearing from God because, you know, they're going to psychics and they really want to hear from something outside of themselves. But after doing, I mean, lots of outreaches for years, I found out something—that most people don't know that God can speak. They have no idea that Christians can give prophetic words.

Now the prophetic gift is now rebirthed. Since that time, you can go into churches, probably somewhere in most cities around the globe, and you can get a prophetic word. You can find a team that will give you a prophetic word. But back when I started, back in 1988, when we heard someone who had the gift of prophecy, we would load up the car—I don't care, you know, 100 people in a Volkswagen that only went in reverse—and drive ... In other words, we were hungry back then. And we would go places where we would find people who could give prophetic words.

But now, you know, the Lord has now brought that into the mainstream, and it's an exciting time. I tell you, I'm so thrilled to be part of those days. And it's still alive. I'm not saying it's the past. But God is now morphing it into something new, and there are prophetic teams that are rising up, and God's going to start a new movement using the gifts.

I have a special guest on the broadcast. It is Stacey Campbell. Her and Wesley are good friends of mine, and we've known each other for a long time. She has a very powerful prophetic gift. I just love her, and she's part of many of the revivals, the 1994 Toronto Blessing. Her and Wesley were part of those moves of God. So, this is a person who is carrying the gold. She is carrying something. Her and her husband carry a piece of revival within them, and they have a heart for people. I just love that about them. So, I'm really thrilled to have her on the broadcast with me.

Doug: Stacey, welcome to the broadcast.

Stacey: Aw, it's so good to be with you again, Doug. It's awesome.

Doug: Yes. We've missed you. I think the last time we were together was in Pasadena at one of the H.I.M. things. But before that, it was out of Michigan or something. I did an event a few years ago. But God's really doing stuff all over the world.

Stacey: Um-hum. You know, Doug, actually you've been in very key places in my life and in my husband's life and my son's life. And I remember... You know, what's really on my heart to talk about today is what God's doing, you know, the times and seasons that we're in—in the Lord.

I'm kind of one of those people that sees things a bit ahead of time, and so I launch out doing stuff. Like I was ... In 1987-88 we were Baptists. Wesley and I had just got out of Baptist Bible College and Baptist Seminary. And we had this outpouring of the Holy Spirit, kind of a mini-Toronto before Toronto, 7 or 8 years before Toronto.

Doug: Wow!

Stacey: And it just birthed the prophetic. And we had this huge move of God, like hundreds of people got saved in that. It was very much like an Acts 2. It was incredible. And so, I kind of foreran that, the whole ecstatic prophecy thing. And I wrote a book on it, more than *nabi* versus the seer. But in the 90s, this is when I first met you, I was about to ...

I had come out of Australia. And the Lord had spoken to me through a group there about launching prophetic evangelism in North America because at that time there were ... Like, Bethel wasn't doing treasure hunts. There wasn't any prophetic evangelisms that I knew of.

And the Lord talked to me about hosting prophetic "free spiritual readings." Free, you know, prophetic consultations for people because He said to actually meet the needs of the culture. Like in Acts 17 where the apostle Paul went up on Mars Hill and saw that people were very religious, but they were searching for God. And he said, "*The God you don't know, I'm about to reveal to you.*" And then he just would launch into evangelism.

God was speaking to me that there was this plethora explosion of psychics and psychic fares and all that, and yet the Church has prophets who are anointed. Ephesians 4, that God gives some to be prophets, and pastors, and teachers, and evangelists, and all the rest of it. But there is an anointing

from Heaven for prophecy and, *“Greater is He that is in us than he that is in the world.”* And why weren’t prophets reaching out?

So, Patricia King used to go to our church in Canada at that time. I remember this. This is where I first met you. It was so crazy, and she was doing this School of Evangelism, and I had spoken to her about this idea. She said, “Great, Stacey! I’ve already got like, just people going out on the streets and doing surveys, and doing art evangelism, and doing like, music evangelism, just taking a guitar out,” she said. “But I don’t have anything ... Like, that’s a great idea: free spiritual readings. You can run the whole team.”

So, I was kind of freaked out. And you were trying to get into that School of Evangelism. So, we had a couple of hundred people signed for it, and you were trying to get in and the school was full. So, she said, “No, the school’s full.” And you kept saying, “But how do I get there?” Anyway, you were so persistent in getting into that school, and you ended up in my class. Patricia said she finally let you in because you flew all the way there without even registration. And they told you no, you couldn’t get in. And you flew anyway from the States.

Doug: That’s not like me.

Stacey: But we did that little ... I know. But the crazy thing is, I remember, you remember I said, “I don’t know what I’m doing.” I said, “You know, I have never done this before. I’m your leader. Follow me.” But you were the only guy in the whole class of 30 students—out of the school of 200—my section was training in free spiritual readings. And we went into Booster Juice and all that, but you were the only guy in my class—first class, my inaugural class—that had ever been to a psychic, so, before you had been a believer.

I said, “Well, what do you do there? Like, what do they do and like, why do you go there?” And you so helped me like, from the class to kind of become culturally relevant. To kind of like Hudson Taylor, you know? Not use so much Christianese and actually do prophetic evangelism to a seeker that is looking for God. Yes, that was amazing that you ... and you were the best one in the class, and you took prophetic evangelism to a whole new level.

Doug: Right. Just so you know, I hadn’t written my book yet. I mean, I really was green at this. I knew the Lord told me if I didn’t go there I would miss my destiny. That’s what He told me.

Stacey: Wow!

Doug: And it was like I knew I had to ... It was like a test for me. It was funny because I went up there, and I was out of a job at the time. I had just gotten

healed of Huntington's disease. And we actually met in San Jose. I had just gotten healed of Huntington's a couple of weeks before. And you and Wesley were speaking in 2001, and you called me out and said, "What are you doing here, Elijah? You should be out. What are you doing in this cave?"

Stacey: Wow!

Doug: And at that point I knew. The Lord said that, "You need to be at that conference she's talking about up there." So I jump on the plane with no place to stay, even. I was willing to stay in the Kelowna Airport. And I see you on the plane. That was a trip! And you drove me over to your sister's house or something.

Stacey: Wow!

Doug: You know, it was like a whole bunch of things happened.

Stacey: Oh, yes, right. That's true! That's true. I forgot about that part.

Doug: It was so wild.

Stacey: But, anyway, it was awesome.

Doug: Yes.

Stacey: Like, you were the best student in the class. You took it to a whole new level. You actually then really ... like, we kind of sowed the seed for those things, kind of launched it out of there. Patricia and you both took it to a whole new level and really, you know, began to minister and bring so many people to Jesus that were searching for God but in all the wrong places.

Doug: Yes, exactly.

Stacey: So, I just have to honor you for that.

Doug: Yes, thank you so much.

Stacey: And then the next time I met you, I was doing a conference with you at Steve Springer's in Minnesota.

Doug: Madison, WI.

Stacey: Madison, WI. That's where it was, yes. And we were doing a prophetic conference, you, me and Steve Springer. And I got up that afternoon to speak, and the Holy Spirit just hit you. And you said you've got ... this deep

grieving came over you. You just started weeping and texted 350 intercessors and you said, "I don't know what's going on but, you know, I got hit with this spirit of grieving. Please pray for the speakers at this conference. It feels like a spirit of death." And you said you interceded weeping for 3 1/2 hours while I did my sermon and ministry time.

When I met you and Steven and the rest of the people at the dinner, we had dinner together, you said, you know, that it went from grieving to believing. And I didn't even know what had happened yet. As you're telling me this story of interceding for 3-1/2 hours, getting all your intercessors praying, I get a phone call from Emergency from my husband and found out my second son, Judah, had just broken his neck in a rugby game and was instantly a quadriplegic. And he really, he actually could have died.

Doug: Yes.

Stacey: So, literally it was ... He just smashed his neck and he was instantly a quadriplegic. What happened, you know, was extraordinary. There's a whole, you know, bunch of prophetic pieces to this. But long story short, my son walked out of the hospital 5 weeks later. And all your intercessors were already praying, you know, before the accident happened. And I felt like, you know, what you did was you stopped the intention of the enemy with your intercession and we got a dramatically different result.

Doug: Yes. Wow!

Stacey: So now my son Judah is totally healed. It's just an amazing story.

Doug: Amazing. I cry every time I hear the story or think back on it. It's one of those times where you're thinking, "No," you know, "This isn't the spirit of death. It's Stacey." You know what I mean? You start doubting it.

Stacey: Yes.

Doug: I do remember sitting down at dinner trying to like ... because I am "the encouraging word" guy. And how do you flip this around, you know? "Oh, by the way, you know, the spirit of death is over you?"

Stacey: Um-hum.

Doug: I was trying to figure out a way to say it. But the Lord said to me that He's going to bless you as a mother. And I remember that part. I didn't understand it, but it's so true. It was so much fun seeing ... not for you to walk through that, but now we're standing. It's fun, it's fun now. We're celebrating because we're looking back and saying, "Yes, that's the Lord."

Stacey: Yes.

Doug: And for any of you listening right now, if you have a situation that the mountain hasn't moved, if you have a situation that looks bleak, you know, this is the same God that's available today for you.

Stacey: Um-hum. Yes. Totally. Totally. I want to just add an explanation point to that. Because, you know, the Lord had spoken to Chuck Pierce the year Judah broke his neck, 2013. His "Head of the Year" word was, "Judah will go first." So, I always, when I tell Judah's testimony is that, you know, the doctors had said 95 to 98 percent chance he'll be a quad for the rest of his life because, you know, it was severe spinal cord damage. But Judah walked out of the hospital 5 weeks later. So, I feel like Judah is just a prototype ...

Doug: Yes.

Stacey: ... of you know, greater miracles that are going to happen all over the body of Christ. And Judah's breakthrough is available to anybody else just ... Your breakthrough's coming. It is time to see the impossible happen.

Doug: Yes.

Stacey: Things that are impossible with men are possible with God.

Doug: Yes. That's the word I keep getting, Stacey, is it's time. Last year I heard the Lord. I had an encounter in Heaven and the Lord ... Every time I would be taken into these encounters the Lord would say, "It's time."

Stacey: Wow.

Doug: And I just feel like there's something with that, about the timing of the Lord right now, what He's doing in the world right now. You're out there more than me. Just share a little bit about it.

Stacey: Well, it's interesting you say that because at the Apostolic Council of the Prophetic Elders—we had a Global Prophetic Summit with prophets that came from all over the world, 50-some nations—about three or four months ago. We met under the leadership of Cindy Jacobs. And it was ...

Bill Hamon said this. He said that 2018 is an amazing period of time. He says it's 70 years, you know, from the 1948 Latter Rain Movement where they had some of the greatest healing miracles. A movement of healing miracles that was extraordinary. And he said it's 70 years from then. He says it's 70 years from 1948 when Israel became its own nation, you know, up to 2018. He

says it's 50 years from the Jesus People Movement. We know October 31, 2017 which, you know, was the beginning of the Jewish New Year, just before that. So, this is 500 years from the reformation.

We are literally in a fullness of time. And one of the mandates of the sons of Issachar, according to 1 Chronicles 12:32, the sons of Issachar knew the times and the seasons and had understanding of what Israel or the people of God had to do. And when you know what time it is, then you know you can move according to that time. And we are moving into, I believe, a fullness of time. An extraordinary time.

I had this kind of crazy prophetic thing happen to me at the Global Summit, the American Prophetic Roundtable. Then the next day was the Global Prophetic Summit. I was driving my car to catch the plane, and all of a sudden, my front tooth falls out. Cindy Jacobs always says, "Stacey, you're a signs prophet," you know.

And, as we know from the Old Testament, Ezekiel was a signs prophet, Isaiah was a signs prophet. Most of the Major Prophets, it was like stuff would happen in their life. Jeremiah was a signs prophet, you know. And that was an indication and part of the things, that their life became a prophecy for the nation.

Not that I'm saying that I'm any of those. But sometimes I have signs that are, that are prophetic words that happen to me. So, my tooth just, I have a veneer on my front tooth and it just ... I'm not chewing anything, I'm not doing ... I'm talking, and my tooth falls right out of my mouth.

So for those of you who understand dentistry, you know, when you get a veneer they usually last between 25 up to 40 years, maybe more. So, I chipped my tooth as a kid. The dentist put on a veneer, and when I was in my 40s the dentist said, "Well, you know, we should probably take that out and put in a new one." So, he like ground it all off. It was a big process.

And so, this is a fairly new veneer relative to the timespan of veneers, and they don't just fall out of your mouth. It just fell out of my mouth. And it was very embarrassing because I looked like Jack Sparrow, you know, like *Pirates of the Caribbean*. It was just falling out of my mouth. And when I took it out I had this sort of stump there.

So I'm distracted at the Prophetic Roundtable. So, I get the plane, I get there and Monday morning all I want to do is not be at the Roundtable because I'm sticking my tooth back in all the time as I wanted to get to a dentist. So, I finally get a dentist that will take me at lunchtime. So, I go at lunchtime, get the veneer put back on my tooth, and I go back at 2 p.m. to the Roundtable.

And Cindy says, “Stacey, what’s the Lord saying?” And I start to prophesy, and my tooth falls out of my mouth again.

Doug: Oh my.

Stacey: So, in 24 hours it just fell out of my mouth twice. And then I went to Adelaide, Australia after that, within a week, and it fell out again. So, I had that tooth fall out of my mouth three times in one week. It’s like unheard of. They last 25 to 40 years. So, I said, “Lord, what are you trying to say to me?”

So we’re in the middle of this Roundtable and Cindy said, “I had a crazy sign.” So, I will link these two things together. She said, “I had two buzzards on my house last night.” She said, “I’ve never had ... I don’t even know if there are buzzards in Dallas, TX. I’ve never had that happen before. But there were two of them on my house as I’m about to host this week of American and international prophets from all over the world.”

She said, “Barbie Breathitt, what do buzzards mean?” So, Barbie Breathitt is looking up in her book. She says, “Oh, buzzards mean,” she said, “transition because buzzards or vultures only show up when something’s dead and they feed on the dead thing. That means something’s totally over and you’re about to move into something totally new.”

So that hit my spirit. And I’d already lost my tooth twice at that point, so I look up, “dreams, visions.” I’m looking up, “What does teeth falling out mean?” And the very first thing, it had a number of meanings, but the first thing I read, it says, “Oh, teeth falling out means transition because you lose your baby teeth, and then you gain a whole new set of teeth. And that means you’re moving from one phase to another phase.” So, it was this kind of symbolic thing.

And Bill Hamon had just given this whole thing of 70 years of this, 70 years of that, and 50 years of this. And I believe, Doug, with my whole heart, that we are moving into something so great. That we are moving, that all that the last move of God that many of us have been involved in like the Toronto that birthed ...

You know, Mike Bickle said he got a prophetic word at the 10 year, you know, at the, I forget, 3 or 4-year anniversary of Toronto, one time he was there to launch the House of Prayer. So that came out of that move, and Brownsville came out of that move, and all the Revival Alliance came out of that move. Heidi Baker’s whole movement in Africa came out of that move. Bethel came out of that move. All those ...

It was one of those things, a massive outpouring. Millions of people came into the Kingdom. You came, you know, launched out of that thing. So many ministries. But at the 20-year anniversary of Toronto to a man, the Revival Alliance leader, said the Lord showed them that this was just the little wave. But there was a bigger wave coming.

Doug: Wow!

Stacey: And I feel this year we are now moving from the little wave into the tsunami wave. And this is not like a glory-to-glory move, although we'll always carry things further. This is a brand-new move of God that's going to be bigger than anything we've ever seen. It's not an improvement. But you don't pour new wine in an old wineskin. There's a whole new set of leaders being birthed for this. And the leaders of the other move are going to keep going, and it's going to be not either/or but both and more.

But what I'm seeing, Doug, I am seeing a shift from revival to reformation to transformation. I am seeing a shift from Sunday morning, and mega church and people coming to revival meetings. From the shift from Sunday morning or, you know, weekend evenings, you know, where they all came every night, night-after-night to Toronto.

I'm seeing a shift from the "come" move of God where people came. They got empowered by the Spirit. They got filled with the Holy Spirit. They, you know they got equipped by the speakers. So, if I were to use this language, it's a shift from "come" to "go."

It's a shift from Sundays and evenings to Monday to Friday. Where you're going to see the saints actually take the anointing that they received in these past moves and move it into the marketplace, move it into the workplace. Move it Monday to Friday. Equip the saints, doing what they had in the past season, gone to church or to a revival meeting to receive a miracle, salvation, healing, financial miracles. They're going to actually be those people that are laying hands on the sick on Monday to Friday, prophesying to the business to see massive shift, you know, that prospers everybody.

You know, the power to create wealth will be on the people of God, not only the power to be a witness. And we are going to see a massive move of anointed people, Monday to Friday, taking over for the Kingdom of God. Maybe that's not good language. But bringing the Kingdom of God and the beauty of Heaven on the Earth Monday to Friday—in the middle of the marketplace, in the middle of the workplace—and I think it's going to be so huge.

It won't be just a few anointed people leading from stages, but it will be a global ... Saints that are equipped to let His Kingdom come and let His will be done on the Earth as it is in Heaven.

Doug: Wow! Yes.

Stacey: And I can, I'm starting to see these little examples so ... I was recently with this doctor. And she was telling me her and her husband are both doctors, and their son was trained in the House of Prayer. And she said the Lord told him to open a practice right next to ... She said normally doctors go, you know, where more in the suburbs where people are. Or they, you know, the center.

But she said the Lord told them to open a doctors' practice (her and her husband are both doctors) right next to an international place where global leaders come regularly. They fly into this city and out. And it's right next to this huge international place where presidents come, governmental officials come, leaders of economic forums come, and different things like that.

So, they did. And she said their son, they gave him the top floor. And he built a House of Prayer on the top floor, and he built it Monday to Friday, and they operated their business Monday to Friday. They still do. She said, so he has a House of Prayer that's not in a church and it's not in a ... The House of Prayer is above the doctors' office. Nobody can hear it, she said, because they're right next to this ... They're the closest doctors' office, when people would get sick, world leaders would come to their doctors' office.

She said over and over again people would walk into the office and begin weeping because the presence of God was there. Because the Tabernacle of David was Monday to Friday over the doctors' office. She said they would come in, they would make their appointment, they would write out their prescriptions, and she said they would begin weeping. And they would be embarrassed because they are highly educated, sharp people. They said, "I never cry. I don't know why I'm crying." And they would start telling them their life stories.

So, they would give them their prescriptions or their diagnosis. They said, "Can we pray for you?" You know? "We just want to bless you." So, they would turn into like, not just physical healing but like a lot of times, just prayer. And she said very often after they got healed, they would make another appointment to come back. And they would say, "We don't know why we're here, but I've never felt anything like I felt in this office and I had to come back. I'm not sick anymore." So now they're opening like a counseling service right next door. And that's just one testimony of people that I'm hearing.

The corporate office, you know, the leaders are becoming believers and they're witnessing. And they're the evangelists Monday to Friday, and all their top corporate people are getting saved. And financial heavyweights are getting saved, and high-level executives are getting saved. So, they are having to start church on Friday at lunchtime or Thursday at 2 p.m. They're doing church in corporate buildings, not Sunday morning, because so many people are getting saved that they have to actually minister to them actually at the workplace.

So, we're seeing revival happening Monday to Friday, churches being planted, houses of prayer being planted in the marketplace. And it's the movement of the saints where the anointing they received from the Sunday and evenings, they are taking it every Monday to Friday and starting to see the glory of the Lord cover the Earth as the waters cover the sea. And the miracles happening in, you know, doctors' office and corporate offices, executive offices, and university classrooms. It's really the Kingdom coming, and I'm so excited about it.

Doug: Yes, you know, I just feel the anointing so strong right now over this. And it is big, and it's the transfer. I keep hearing that word, "the transformation." You know, the Lord transforming it.

Stacey: Um-hum.

Doug: And it sounds to me ... You know, I'm hearing people like you that are out on the frontlines all the time, that it's impacting all different sectors of business in the Church and outside the Church. Yes. Are you seeing that?

Stacey: Oh, yes. I mean, I could tell you stories. But, you know, just for the discussion of people, but it is crazy the miracles that are happening.

One anointing that I am seeing come in this move is the power to create wealth. So, we all know, you know, in the Church we all know about the power to be a witness. You know, Acts 1:8, "*Go and wait until you receive power from on high.*" And they go to the prayer room, they're there 10 days, you know, the power from on high falls and its prophetic power. They all begin prophesying, they get filled with the Spirit of God.

And Peter describes it, "This is what Joel is talking about." You know, "These men are not drunk like you think. They are filled with God." Their bodies are filled, their souls are filled, their minds are filled. And they are all prophesying, declaring the wonderful works of God in their own languages, you know, in tongues. Then he said, "But this is what Joel was talking about. 'Old men will dream dreams, young men will have visions, men and women will prophesy.'"

So the primary manifestation of the power to be a witness that they were waiting for, for 10 days, is prophecy. It's dreaming dreams, having visions, men and women prophesying filled with God, declaring the wonderful works of God in their own language. And we all know the result of that was that 3,000 people got saved in a day. It was revival. And that's classic revival.

In my book *Ecstatic Prophecy*, I have a whole section on Church history where from the Montanus and Huguenots, to John Wesley, to George Whitfield, to Jonathan Edwards, to Azusa to you know, to Toronto, to the Latter Day. Like, all moves of God where you see a real revival, lots of people saved in short periods of time, have that dimension of the Acts 2, and we all know that. We have lived in those revivals. We study those revivals. We love revival.

But—the power ... There is another power that comes direct from Heaven which is Deuteronomy 8:18. I believe it is that there is a power to create wealth. God says to His people that, *"I will give you the power to create wealth."* But that blessing of power to create wealth is that you might be a blessing.

So as Christians we often understand that Jews are anointed above their fellows. They are blessed, and they were given the mandate to disciple the Gentiles into the knowledge of God. They were given the mandate to bring the knowledge of God to the Gentiles, and that's why it's always to the Jew first and also to the Greek, to the Gentile. They had this mandate.

But as Christians, we all expect the Jews to be richer. We expect the Jews to be smarter. We expect the Jews, you know, to be more influential. We understand that there's a, you know—relative to the proportion of Jews on the face of the Earth—their influence and significance is highly disproportionate to their population base. You know, there are more Nobel laureates, more inventors of things, more people in Hollywood. I mean, it's just crazy. And because they understood from Deuteronomy 8:18 that they got this power to create wealth that launched them to be the head and not the tail.

Yet Galatians says that those of us who are grafted in ... My husband has this amazing sermon on this called "The Blessing," that we get all the promises of Abraham plus, you know, we're to even take that further so that we make Jews jealous with the anointing. Because the Jew understands when a person is blessed, the blessing comes from Heaven and that the blessings we receive ...

I am seeing, Doug, in answer to your question a while ago, that God is

anointing His people with that blessing, that power to create wealth because He wants to move into Monday to Friday. He's anointing His people with ideas that are making them over ... Like they're creating wealth.

I recently prophesied over a guy that got this idea in a dream, and it took him three or four years to make patents on it. He got the global patent for it. The week he got the final patent for it, you know—the multimillion dollar idea, it turned into, you know, a \$100 million idea—because Obama made a decree that week that made his invention that he just patented worth, you know, a hundred times more than it was at the beginning. And now several nations have made those kinds of decrees.

And now he has moved into being a billionaire in just, you know, five or eight years because of the dream that came from Heaven. And that's the power to create wealth. But all he wants to do is help the poor, bring movements of justice on the Earth. He understands he is blessed to be a blessing. He's an evangelist in the corporate world because he's telling everybody, "Oh, I got this idea in a dream, and this person prophesied over me." I had prophesied over him and other people had prophesied over him and he would say, "And all these prophets."

So, these people are saying, "What's prophecy?" You know, "What do you mean this person prophesied over you?" And now they're looking to have, like the prophetic come and minister to them. And he's leading them all to Christ, and he's an evangelist in the corporate world and starting services, you know?

It's just so exciting to see these anointings. They don't work just in church. They come from Heaven, and they're meant to actually manifest the nature of God to the Earth and to bring His Kingdom—to bring salvation to the masses and to bring justice, to bring righteousness. Blessed to be a blessing, to bring inventions that actually help all of humanity. His invention is going to shift, you know, health for the nations of the Earth. I know another guy that got an invention in a download that has shifted education, you know, in a continent.

This is what I'm seeing, that God's anointing people with the power to create wealth, with this blessing from on high that's not just power to be a witness. We understand evangelism and revival. But transformational power that actually will bless every citizen of the city you're in, or the state, your province you're in, or the nation you're in. Something that actually benefits humankind because God so loves the whole world, and He's not willing for any to perish. His ideas are so big that they bless everybody. But He wants to anoint His people with that kind of power, that kind of blessing that brings transformation and salvation, not either/or but both ...

Doug: Right, and now this is, this is the very anointing that Joseph had in Genesis 41. You talked ... and it's the prophetic. He didn't just interpret a dream, he gave the word of wisdom and he actually activated that and changed the world.

Also, when you were saying ... I just keep going back to Prophet Bob Jones. He was the one who prophesied the Billion Soul Harvest. He gave his whole life to the Billion Soul Harvest. Every time I was around Bob and he talked about it, he would always say we would need a lot of money. We're going to need a lot of money ...

Stacey: Wow!

Doug: Because this group doesn't have money. Because it's going to be big, it's so big. And he died without seeing it, but now his seed fell to the ground. And in John 12:24, and especially with Billy Graham as well right now, we've got the seed that just fell to the ground. And now we have a prophet and an evangelist crying out for this stuff to come.

Stacey: That's awesome. And, you know, I just ... I just believe there are people listening right now, Doug, that know that they are feeling the Spirit on them as I speak about the power to create wealth. And, you know, this is not greed. You can't hold this power. When God gives you these ideas, He wants you blessed, yes, but He wants you blessed to be a blessing. He wants you to get ideas from Heaven that are actually shifting things, and I feel like it's resting on people right now. Lord, we just release that over them.

Doug: Yes, Lord.

Stacey: We prophesy, God, that it's coming from Heaven. And they are going to have, you know, the \$10,000 idea, the \$100,000 idea, the million-dollar idea, the billion-dollar idea. God, that as much as they can contain with their character, God, You are going to pour it out in them. And they are going to release that blessing and bless all the people around them Monday to Friday, God.

They're going to change their cities. They're going to change their families. They're going to change their neighborhoods. They're going to eradicate poverty. They're going to bless the single moms in their apartment block. Father, Lord, right now God, loose that power to create wealth that makes them the head and not the tail, that gives ... Lord, for the sake of harvest and the preparation of Your Kingdom coming on the Earth like it is in Heaven, in Jesus' Name.

Doug: Amen. Wow! That was so powerful. You know, one thing I appreciate—there's so much I appreciate about you—but you prayed a prayer very similar. Like, I could tell that same anointing that you prayed over me when we first met back in 2001, and I went from there and I had never—now, I had prophesied over individuals—but I went from there and actually went to a meeting and did a meeting or something, and I began to prophesy over people in the crowd. It exploded, and something began to happen.

Stacey: Um-hum.

Doug: And it triggered, it was like a chain reaction in the Spirit that pulls. You know, right now it's happening.

Stacey: Yes. You see, I believe, I believe that freely we've received and freely we give. I know God's moving Monday to Friday, so I'm actually working with people right now launching workplace prophets. Wesley calls them "palace prophets" like Joseph, like Daniel.

I'm starting a whole school on it, a course. They can sign up if they want, WesleyStaceyCampbell.com. In the next week or so I'll have it all posted. And I'm going to train people first in the values of the prophetic, and then I'm going to train them how to prophesy Monday to Friday.

But I'm also going to gather people, you know, that carry this to speak to pharaohs and to speak to Nebuchadnezzars and Xerxes, what Joseph did, the tops of mountains. God is loosing on people that are next to pharaohs and Nebuchadnezzars, that are next to the kings of the Earth. God is loosing that prophetic on them and equipping them how to move like an Esther before the king and like a Joseph before a pharaoh. So, I believe that equipping people and, not only like impartation, but actually training them how to move in that.

I just love giving everything away. I don't want to have one person, like Elijah and Elisha. I don't want to have one person. Anything I have from Heaven, I want to see it multiplied. "Lord, look, You gave me one talent, I brought you one more. Look, You gave me five, I brought you five more." Whatever measure God gives, I love to see it released and I'm so happy. I've had probably hundreds or thousands of people tell me the same thing, that once you know, after I prayed for them, they started doing it.

There is no greater joy than to see, you know, the prophetic. I want to see the testimony of Jesus fill the Earth, fill the office buildings, fill the highways, you know? Fill the university classrooms, fill the corporate office with edification, exhortation, comfort, the knowledge of God, the testimony of Jesus. I want to see ...

I wish all God's people were prophets. And you now have taken that anointing and you have multiplied it. And you now are far greater than me in actually, prophetic evangelism, in reaching out to the lost, in taking the testimony of Jesus and binding up the broken hearted. Like, you're amazing at that. You've exploded it, and then ...

So see what happens when you give things away? People can go further than you ever, ever could and reach people you never ever could. So, you know, I hope you also give it away everywhere you go.

Doug: Yes. Absolutely. I love it. You know, it's been such a powerful time, and another thing that I just wanted to say about Stacey and Wesley is they accept people. For me, I had a radical visitation in 2013. Three times in one year the Lord called me to a group of outcasts that most people wouldn't want to reach. In fact, it got me in trouble everywhere I went.

The Lord said, "This is so big, I'm going to cause the Super Bowl in 2013 to prophesy over it." He told me ahead of time. He says, "What I'm calling you, it's going to be a sign around the world." And in New Orleans and San Francisco and Baltimore we're playing, and that's the west to the east. The Lord was going to move in places like New Orleans, you know, in these places ...

Stacey: Umm.

Doug: And the lights went out in the stadium during the Super Bowl for 34 minutes.

Stacey: Wow!

Doug: And the ending score ... When it went out it was 34 and the ending score was 34:31 which is Ezekiel 34:31.

Stacey: Wow!

Doug: And the Lord said, "I'm calling you and many others right now to the Ezekiel 34 lost sheep who have been wounded." There was way more to that whole prophecy of the Super Bowl. Then I went on from there and had an encounter, and then the Lord showed me who it was. And it was the outcasts, you know? And that's why I have one portion of that.

It's not like it's going to be all this, but I have the LGBT calling for it. I'm not gay myself, but the Lord gave me a heart and He said, "I want to show you what's going on behind the scenes." I went into some meetings and I met a whole group of amazing LGBTQ people, who are being filled with the Holy

Spirit, radically converted. But the Church is just killing them, killing them, killing them.

That's my calling. But you and Wes are some of the few people that embraced me and stood up for me in the midst of receiving a calling that, you know, people don't understand. And I've had to walk with some shame. But there was such a fathering and mothering anointing on you. You may not realize it, but you just have been such a breath of life to me, especially when I first received it. And, you know, I mean, it was just bad during that time how I got treated but bless their hearts. I'm just saying. You know, I just learned to do that.

Stacey: You know, it's always hard to move into a new arena and, you know, sometimes when we're starting ... Like, I know for myself when I've launched things, I honestly don't know what I'm doing. And sometimes, you know, when I'm launching things, you know, I make mistakes. And, you know, I stumble, and I get back up, and I keep moving towards it. One thing I do know is that God is not willing for any to perish.

Doug: Right.

Stacey: But for all to come to the knowledge of the truth, and God so loves the world ... God loves people that we don't love. And you know, and God's heart is always reaching out to try to bring them to Himself. Then you know, we've seen you know, the addicted come in. And maybe they don't get totally free of their addictions right away, but God begins to like, minister to them.

Doug: Yes.

Stacey: And over time He just loves them to wholeness. And I feel like we are less patient than God, you know, as God is moving. But God's heart is ...

Doug: Right.

Stacey: ... God is love, and God is holy. He's all these things at the same time. He's perfect, you know? But good for you for caring for people. And I'm sorry that sometimes, you know, we are not understanding the heart of God that's pushing these initiatives, you know?

Doug: Yes. The Lord ... Actually, the Lord prepared me. With doing prophetic evangelism back then, you know, we were beat by, you know, the "Bible belt." And then He called me into the tattoo ...

Stacey: Yes.

Doug: ... you know, the tattoo stuff. I don't have tattoos. I haven't changed my theology in any way, you know, about homosexuality. In other words, it's just love. Like you said, if we can grab hold of the heart of love and the Spirit of prophecy ...

Stacey: Um-hum.

Doug: ... we can change the world.

Stacey: Um-hum. Yes. Yes. "If we know all mysteries and all knowledge and we don't have love, we're nothing." You know? So ... and yet as we move in, you know, God is holy. God is just.

Doug: Yes, exactly. Yes.

Stacey: And God is all these things. You know, we just increase in the knowledge of God, and so it's a beautiful thing.

Doug: Yes.

Stacey: But you have been a forerunner in, you know, the Monday to Friday and going places where, you know, people that don't come to church. You're the forerunner in the, "Go into all the world and make disciples of nations." You forerun that whole verse. And so, God sent you to places to make disciples. It's an awesome thing, so I applaud you for that.

Doug: Yes. Well, I'm just saying that what started as a conference that you did on prophetic evangelism, it hadn't been done in North America. Then it, wow, it sprung into going all over the world in dream and outreach and many different people. Now it even sprang again into a new realm, and it's just going to keep going.

I just want you to know that God is going to use you. Listen. God wants to use you where you are. And whether you feel like you're stuck before a door that is closed and doesn't appear it's going to open, maybe you thought you messed up so bad that you could never do anything again. Maybe, whatever it is, the Lord is greater than your addiction. He's greater than your sin.

Stacey: Um-hum.

Doug: The Lord's love is greater than all of those things. And there's a breaker anointing right now that's going to break out. There's a breakout anointing that's here, and you may want to listen to this broadcast again because there's a powerful anointing for all the different people. You know, the people who are on the frontlines and the medics.

You know, when my dad was in World War II, he picked up people on the frontlines. He was a medic, but there were also the people who were running things, you know, and the generals and making the money. We're the body of Christ, and I just want to encourage you.

Stacey: Um-hum.

Doug: It's been such a powerful time. So, Stacey, tell us again how we can get a hold of you and anything that you have to offer.

Stacey: Well, Wesley and I have a website called WesleyStaceyCampbell.com. So it's just simply WesleyStaceyCampbell.com and we will have more information available there for initiatives for some schools that we're doing, our conference schedules and stuff like that.

But I really feel even my time is going to be spent differently as things move Monday to Friday because God, God is anointing the listeners now. He's anointing them to carry His glory into their spheres of influence. So, yes, we just want to help equip them and serve them to be on the frontlines now. Like I know that's your heart as well, Doug.

So, they can also just look up, mostly it's just WesleyStaceyCampbell.com. We also have a ministry to the poor that we've just handed off to our spiritual son, called BeAHeroInternational.org. We raised homes and orphanages and schools and feeding programs for children at risk all over the world. And that's a massive passion of ours for decades. But that's how they can get a hold of us.

Doug: Great. All right. Well, we've been talking with Stacey Campbell, a good friend of ours and also such a fireball for the Lord. I want you to just share this with someone who feels stuck or feels like maybe you've seen it all and whatever. Because there's an anointing coming right now that's going to release us into this new season of transformation, and I'm just really excited about it.

Thank you so much, Stacey, for taking your time to be with us.

Stacey: Oh, my pleasure, and it's just been great. I just want to say one thing. If the Super Bowl in 2013 launched you, imagine what this Super Bowl did when the Eagles beat the Patriots.

Doug: I know.

Stacey: So, I think the prophetic is going to come like ... This is a season where we're going beyond the national boundaries into all the world, and the prophetic Spirit is coming on His people.

Doug: Yes.

Stacey: I think that's a sign too, you know? So, it's awesome, Doug. What a great time to be alive.

Doug: I believe it. Thank you.

All right, everybody. See you next time.
